Respin for the win

---

## A show unlike any other

The circus is in town, and now the animals are in charge! They've put together a show for you unlike any other. This spectacle is not for the faint-hearted!

With high-paced tunes, you are welcomed into the world of respins, symbol upgrades and the sought after free spins feature that leaves no one disappointed!

Respin Circus is a crazy game designed for Mobile First. Identical symbols are collected, creating large symbol clusters and triggering respin after respin. The paylines generate 64 ways to win the long-awaited 250 000 coins.

Welcome to Respin Circus!

---

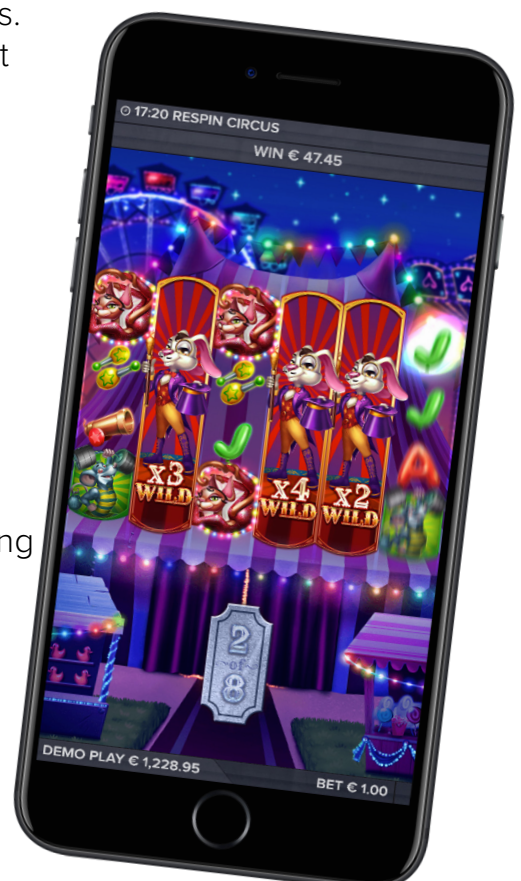

## Respins flow and upgrade

A payline of three or more identical symbols triggers the respin feature. All instances of the triggering symbol along the payline are kept sticky throughout the respins. Additional identical symbols which expand the win cluster, or create additional paylines, and wilds increase the sticky cluster and keep the respins going. Lucky hits of paylines with symbols of higher value upgrade the existing cluster resulting in higher wins. Lower value symbol wins are paid out as they appear, but those symbols are not kept, in order to free up space for other symbols.

---

## Multiplier wild

The wild rabbit multiplies wins by 2, 3 or even 4 times just by tapping his magical hat. But the most advanced trick is to make himself expand into a huge wild covering a whole reel. The rabbit always becomes sticky during a respin.

## Free spins bonus game

It is hard to get hold of a golden ticket, but it won't leave you disappointed once it is in your hand. Three free spins symbols anywhere in view trigger the free spins bonus game and hand out the long-awaited golden ticket.

Up to 24 free spins symbols can be collected on the ticket and brought into the bonus game. Each free spin symbol during the bonus game awards an additional free spin.

# General features

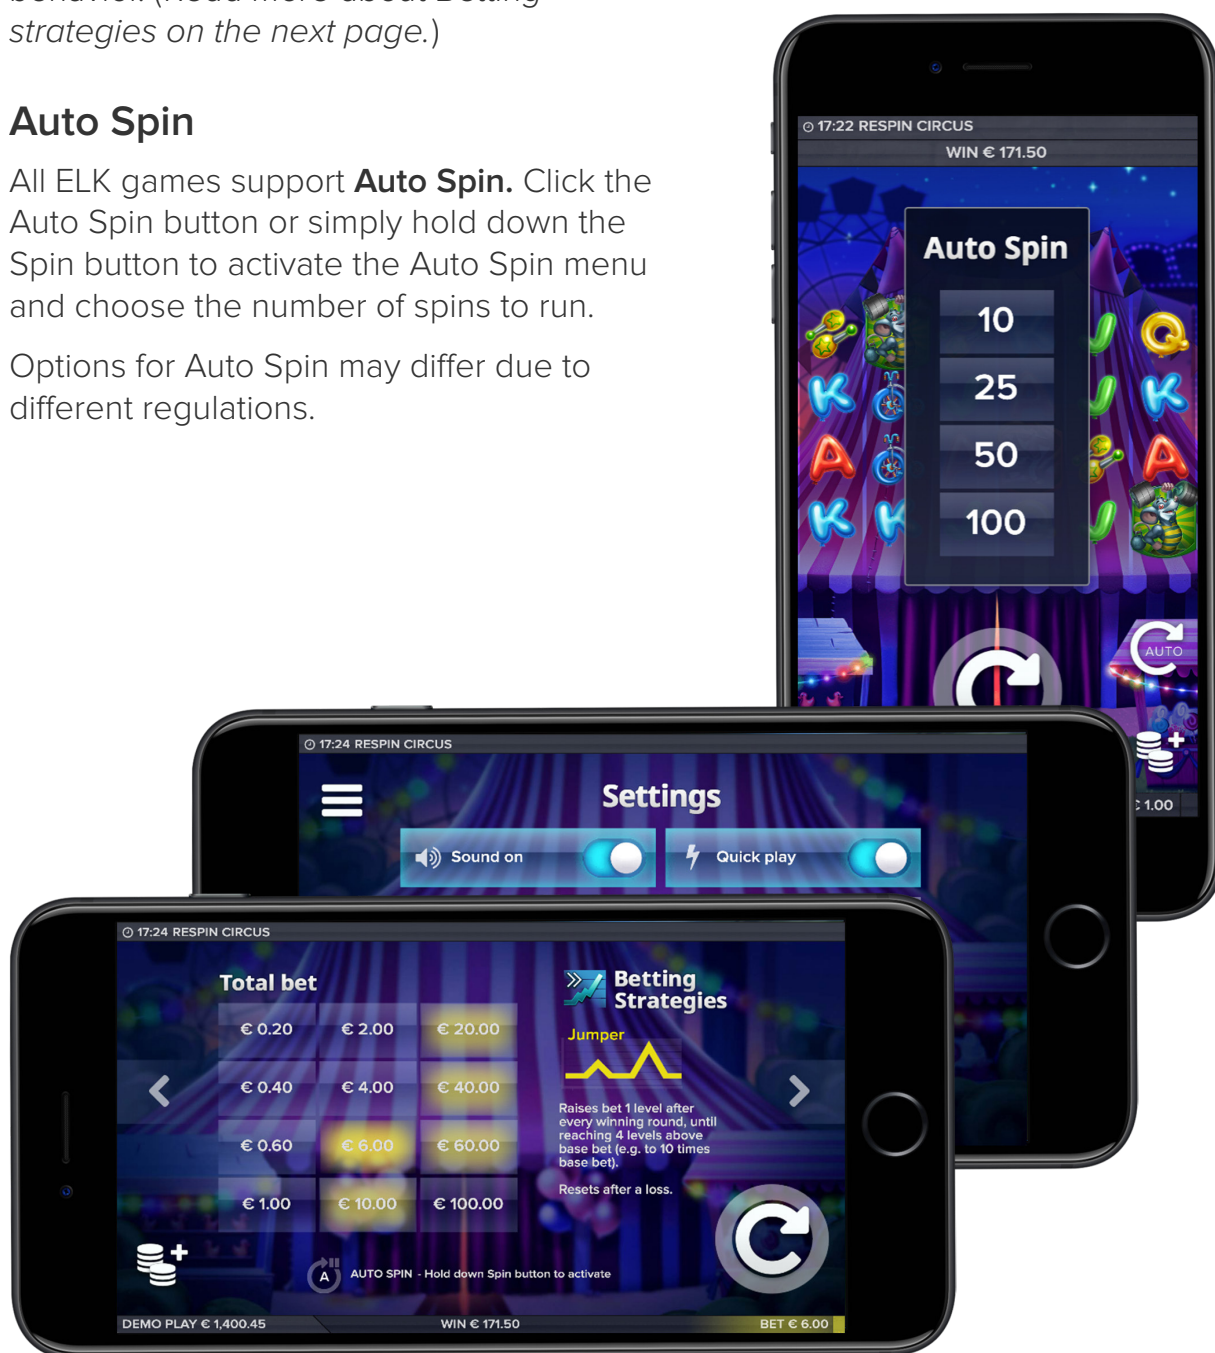

## Betting strategies

All ELK games come with Betting strategies, which are highly appreciated by players worldwide. There are four unique strategies, which all apply to different type of gaming behavior. (*Read more about Betting strategies on the next page.*)

## Auto Spin

All ELK games support **Auto Spin**. Click the Auto Spin button or simply hold down the Spin button to activate the Auto Spin menu and choose the number of spins to run.

Options for Auto Spin may differ due to different regulations.

# Betting Strategies

Many players change their bet size based on the outcome of previous spins. ELK has introduced a new way of playing casino games with the launch of Betting Strategies. A betting strategy is a predefined betting pattern that automatically changes the bet level depending on a chosen set of rules. A player can change or turn off the betting strategy after any spin. Betting Strategies work well in combination with Auto Spin.

## **Optimizer** Bets a % of balance

The bet level will be changed automatically to a percentage of the player's balance. When the balance increases the bet level follows up automatically, and vice versa when the balance decreases.

From 1% (*casual player*) to 10% (*high roller*) of the total bet balance.

## **Leveller** Raise on 5 concurrent losses

The bet level will increase 2 steps after 5 concurrent losing rounds. After another 5 losing rounds the bet level will increase 2 more steps.

Bet levels will be reset to base level after a winning round.

## **Booster** Raise on loss

The bet level will increase one step after every losing round until reaching 4 levels above base level (e.g 10 times base level).

Bet levels will be reset to base level after a winning round.

## **Jumper** Raise on win

The bet level will increase after every winning round until reaching 4 levels above base level (e.g 10 times base level).

Bet levels will be reset to base level after a losing round.
