

Tahiti Gold

It is a magical place!

The return of the king!

After a successful excursion in Ecuador, Kane jumped on a plane and started his long journey home for some well-needed rest. However, fate had a different plan in mind... Suddenly the engines start to sputter. The altitude drops fast. In the distance, a volcano island seems like the only hope of survival. The impact is rough as the plane hits the ground. Through fire and dust, Kane escapes the wreckage just in time before the remaining fuel explodes. As the smoke clears, Kane finds himself surrounded by hostile natives. However, the hostility suddenly fades when they discover the Eye of Tiki tattoo on his left shoulder. Behold, the king has returned!

Kane discovers that his new kingdom is overflowing with gold. There's gold everywhere. The natives claim the source is the massive volcano in the center of the island. Could it be true, is the molten core of the volcano really made of pure gold?

Tahiti Gold is a Mobile First slot with two unique features, the Eye of Tiki and the Wild Forge. The expansion of rows starts at 4 rows and 4 096 ways to win and continues all the way up to a breathtaking 8 rows and 262 144 ways to win.

Tahiti – it is a magical place!

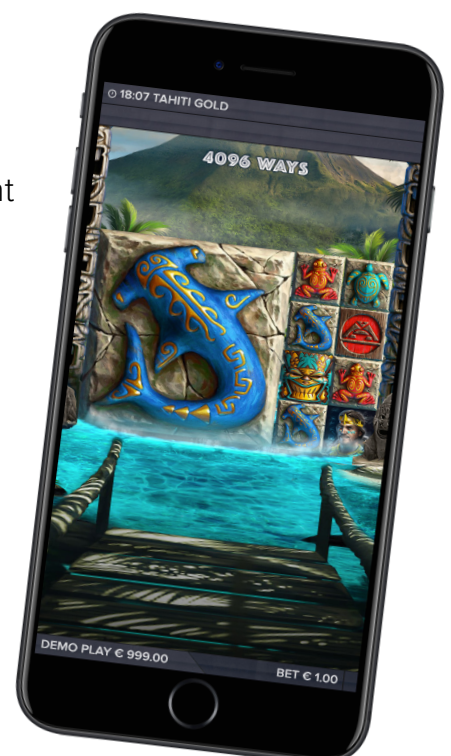

The magic of avalanches

Colorful Tiki blocks fall down on top of each other generating massive and decorative piles. Any winning combinations starting from left to right will pay and explode to give space for additional symbols to drop down from above, potentially giving endless winning combinations. Avalanches add additional rows on top which increase the ways to win all the way up to 8 rows and 262 144 ways to win.

Big symbols

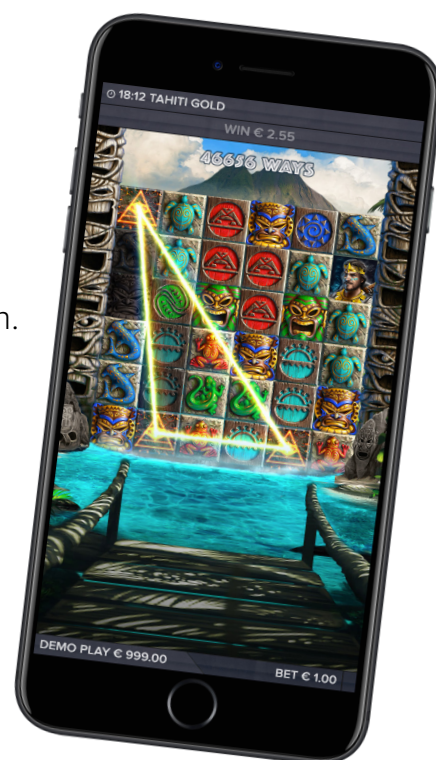

All low, mid and high value symbols exist in four different sizes, ranging from standard 1x1, to super 2x2, to mega 3x3 and all the way up to epic 4x4. These big symbols are really valuable since they are counted as containing the number of 1x1 symbol instances they cover, e.g. epic 4x4 represents 16 standard symbols, resulting in numerous win combinations.

Eye of Tiki

Eye of Tiki symbols may appear in any symbol drop. Two of them trigger the feature that takes effect at the end of the avalanche flow. All symbols which are touched by or included in the area in between the Eye of Tiki symbols explode to give space for additional symbols to drop down. This symbol drop also adds an additional row of symbols at the top. So this is of course a great lifesaver, potentially giving additional winnings.

Wild Forge

The Wild Forge may appear on column 3 to 6 in any symbol drop. It locks into position. Every symbol slot beneath it that is emptied during an avalanche will be filled with a wild. A lucky drop of a Wild Forge on the top row could potentially result in a 7 row high stack of wilds. All the generated wilds become sticky during the free drops, increases the potential of winning big.

Free Drops bonus game

Three or more bonus symbols will erupt the volcano and start the Free Drops bonus game. Three bonus symbols award 10 free drops, four bonus symbols award 15 free drops, five bonus symbols award 20 free drops and a lucky hit of maximum 6 bonus symbols award 25 free drops. There is no end though, the Free Drops bonus game can be retriggedered again and again and again.

One win in the Free Drops bonus game is enough to push the safety level upwards one row, which generates a better starting position for the next free drop. The safety level can continue upwards to the maximum 8th row, increasing the ways to win to a staggering 262 144. Luckily an achieved safety level never decreases during an ongoing bonus game. All wild symbols become indestructible during the Free Drop bonus game. Fingers crossed, Wild Forge symbols show up early in the bonus game and release their eternal source of wild symbols, increasing the chance for epic wins considerably!

General features

Betting strategies

All ELK games come with Betting strategies, which are highly appreciated by players worldwide. There are four unique strategies, which all apply to different type of gaming behavior. (*Read more about Betting strategies on the next page.*)

Auto Spin

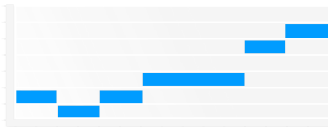

All ELK games support **Auto Spin**. Click the Auto Spin button or simply hold down the Spin button to activate the Auto Spin menu and choose the number of spins to run.

Options for Auto Spin may differ due to different regulations.

Betting Strategies

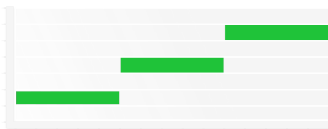

Many players change their bet size based on the outcome of previous spins. ELK has introduced a new way of playing casino games with the launch of Betting Strategies. A betting strategy is a predefined betting pattern that automatically changes the bet level depending on a chosen set of rules. A player can change or turn off the betting strategy after any spin. Betting Strategies work well in combination with Auto Spin.

Optimizer Bets a % of balance

The bet level will be changed automatically to a percentage of the player's balance. When the balance increases the bet level follows up automatically, and vice versa when the balance decreases.

From 1% (*casual player*) to 10% (*high roller*) of the total bet balance.

Leveller Raise on 5 concurrent losses

The bet level will increase 2 steps after 5 concurrent losing rounds. After another 5 losing rounds the bet level will increase 2 more steps.

Bet levels will be reset to base level after a winning round.

Booster Raise on loss

The bet level will increase one step after every losing round until reaching 4 levels above base level (e.g. 10 times base level).

Bet levels will be reset to base level after a winning round.

Jumper Raise on win

The bet level will increase after every winning round until reaching 4 levels above base level (e.g. 10 times base level).

Bet levels will be reset to base level after a losing round.
